

JULIET BALCONY

THE 'INVISIBLE' BALUSTRADE.

A STRUCTURE THAT CONSISTS OF ALMOST NOTHING BUT GLASS, YOU WILL HARDLY NOTICE THAT IT IS THERE! WITH A MINIMALIST DESIGN, OUR JULIET BALCONIES OFFER UNPRECEDENTED LEVELS OF TRANSPARENCY.

The sleek vertically installed profiles will allow you to create Juliet balconies that span up to 2,800mm and can handle two different installation scenarios: onto a façade or to reveals. The systems click feature makes for speedy secure mounting of the glass infills.

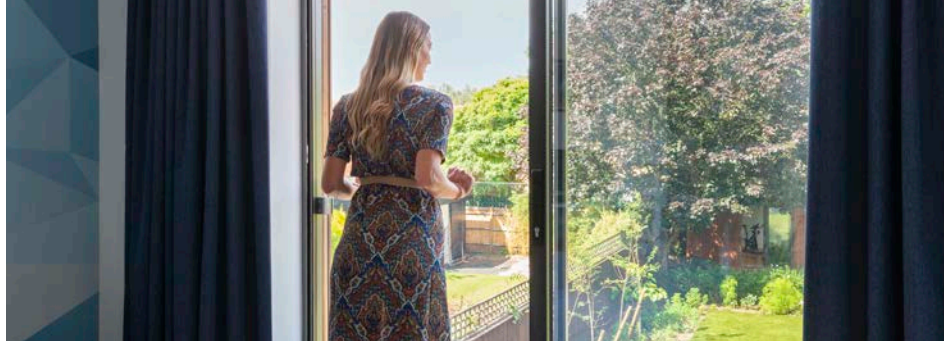

ODC Door & Glass Systems Ltd.

JULIET BALCONY

INNOVATIVE DESIGN FEATURES

- A Juliet balcony with nothing to intrude on the view
- One solution for two installation scenarios: a façade or to reveals
- When installing to reveals, work from inside the building
- Smart click system for easy clamping of the glass infills
- Resists line loads up to 1 kN/m (with 16.76mm thick glass)
- The profiles can be cut to your specifications
- Available as sets with profiles and cover caps
- Can be power coated to match the façade

PROVEN SAFETY

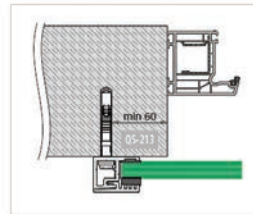

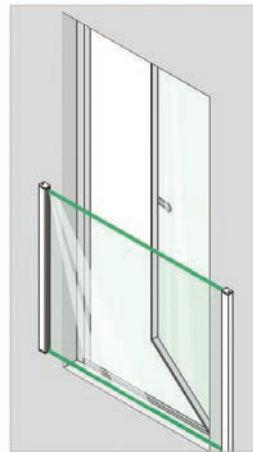

ODC's juliet balcony provides essential fall protection in front of floor-to-ceiling windows at height. Thoroughly tested and certified, the system is suitable for houses and apartment buildings.
