

PLEATED BLINDS

**A MANUALLY-CONTROLLED PLEATED BLIND SYSTEM,
WHICH IS EXTREMELY EASY TO FIT.**

The blinds are simply clipped in, making them perfect for retrospective fitting. They are available as either a one or two-part system, where the blinds can be locked in a variety of positions, moving either from the bottom to the top, or from the top to the bottom.

You can control exactly how much natural light you would like in your environment, while also protecting yourself from the glare of the sun.

PLEATED BLINDS

FLEXIBLE IN EVERY RESPECT

The pleated blinds meet all demands in terms of privacy and sun protection. The functional handle strip allows the operator to either lift the blinds from the bottom upwards or draw down from above. Through the use of an operational pole the blinds can be locked in place to any chosen setting.

INSTALLATION

Fitting is extremely easy and different from conventional blinds as no drilling or gluing is necessary for installation - the pleated blinds are just clipped in and are tool free!

ADVANTAGES AT A GLANCE

- All from a single source: the blinds will be delivered and already fitted to the system
- The blinds can also be fitted after installation
- Drilling or gluing is not required. The blinds are simply clipped into the profiles
- Wealth of choice for fabrics and profile colours
- Step free locking in each height or position
- Easy to clean
- Öko-Tex certification, pollutant free material

PLEATED BLINDS TYPE Q2

Q2 is a one-part blind. Due to its operating function it can smoothly be opened and closed in both directions. This system provides you with uniform screening at your preferred height.

Type Q2 - one-part blinds
Width: 130-950mm max height: 3000mm

PLEATED BLINDS TYPE Q6

Q6 is a two-part system. Both of the components can be adjusted either upwards or downwards. This system enables you to cover the upper or lower part of the glazing area separately, without obstructing the view to the outside.

Type Q6 - two-part blinds
Width: 130-950mm max height: 3000mm

VARIETY OF DESIGNS

Besides the choice of two system types, we also offer endless possibilities for the pleated blinds' design with a large variety of fabric and profile colours that are available for you to personalize and harmonize with your room, just the way you like.
