

ROLLER BLINDS

A BATTERY-POWERED ROLLER BLIND SYSTEM, WHICH CAN BE CONTROLLED VIA HAND-HELD REMOTES, WALL-MOUNTED WIRELESS SWITCHES OR SMARTPHONES/TABLETS.

The controls can also be integrated into existing home management systems and are available in a range of designs and textures, with sheer, translucent or black-out options (perfect for bedrooms).

Our roller blinds will protect your home from the sun, the cold and add privacy where needed. We know that our clients are extremely discerning when it comes to their design aesthetic, and these blind systems perfectly complement our folding and sliding glass door systems.

CLARITY IN DESIGN

ROLLER BLINDS

AFFORDABLE TECHNOLOGY FOR HOME AUTOMATION

Our blinds unlock a host of possibilities for customizing the interplay between space, light and design. Thereby making it possible to precisely control the amount and intensity of the light entering a room and are also an effective means of lending a room a greater sense of warmth and texture. Opening up an endless array of design options.

For textile innovations in countless different stylish ways, combining quality design, anti-glare, privacy protection and dim-out. Our roller blinds come in many colours, patterns and textures. This creative freedom of choice is accompanied by excellent technology, intelligent mechanisms and a high-degree of user-friendliness.

A wide range of formats and dimensions are available, as well as numerous fabric varieties on offer. Not least, they are easy to use and maintain, day after day.

APP CONTROL

- Control your shade via smartphone or table
- QSYNC plugs straight into router via LAN connection
- Range of 10-15m, ideal for most rooms
- Easy to program via website tutorial

BATTERY OPERATION

- No power or control wires, so need for electrical certification
- No unsightly all chasing or visible conduits
- System design to provide up to 7 years usage on a single set of batteries

REMOTE CONTROL

- Operate a single shade or multiple shade via multifunction hand-held remote control
- Wall mounted wireless operation switches available
- Designed for simple set up and immediate use

OPERATING OPERATIONS

- Chain pull, spring mechanism, motorized

FUNCTIONAL FEATURES

- We offer an impressive range of functional features such as acoustic or ergonomic properties or flame-retardant fabrics.

ADVANTAGES AT A GLANCE

- 5-7 years battery life
- No need for cables
- Integrated radio receiver
- Ultra quiet operation, without noise interference
- Sleek designer hand-held control
- Low energy requirement
- Operation available by smart phone or tablet
- Sizes available up to 3m x 3m
