

## ODC WALK-ON ROOFLIGHT

THE ODC WALK-ON ROOFLIGHT COMBINES SAFETY WITH STYLE. IT HAS BEEN DESIGNED SPECIFICALLY FOR ROOF TERRACES AND AREAS REQUIRING REGULAR PEDESTRIAN ACCESS.

They're extremely safe, aesthetically excellent solutions where transparency and abundant levels of natural daylight are required.

CLARITY IN DESIGN

# ODC WALK-ON ROOFLIGHT

Manufactured from our extruded aluminium profile which is thermally broken with two polyamide insulating sections and factory glazed with a walk-on specification insulating glass unit. The latest regulations for thermal performance and safety have been surpassed by the ODC Walk-on Rooflight.

The insulating glass unit can be supplied as a clear unit or with a white PVB interlayer for areas requiring privacy. The glass can also be partially or fully treated to provide an anti-slip finish to the outer pane.

The ODC Walk-on Rooflight is designed to be installed onto an upstand, with the timber decking or roof-top paving aligning with the top face of the glass.

The ODC Walk-on Rooflight is available as standalone single and multi-pane units and can be configured to abut walls.

Technical assistance is available to assist you in the sizing and specification of the ODC Walk-on Rooflight.

## UPSTAND

We offer a fully insulated upstand, which can be manufactured to include trickle ventilation. Our upstand incorporates a 5° pitch, which we recommend to allow excellent water run-off, the ODC Walk-on Rooflight and the ODC Pyramid Rooflight upstands do not have this fall.

## GLASS OPTIONS

We supply all of our rooflights glazed with a high specification insulating glass unit, as standard, there are many additional options including: tinted glass, sound insulating, high performing solar control and obscured.

## TRIPLE GLAZED

Triple glazed rooflights are available on all units other than the ODC Pyramid Rooflight - please ask for further information.

## POLYESTER POWDER COATING

Our frames are supplied dual colour as standard: RAL9010 (white) internally and RAL7015 (slate grey) externally, but we can supply a rooflight to any standard RAL colour, if the project requires.
